

Notice of increase to our Renewable Resource Cost Recovery Rider

The North Dakota Public Service Commission approved our request to adjust our Renewable Resource Cost Recovery Rider for usage beginning April 1, 2024. A temporary factor of 0.000 percent of base charges and credits was in effect January 1, 2024 through March 31, 2024, as part of our General Rate Case filing.

The approved factor for all classes of service is 2.449 percent of base charges and credits. The factor prior to our General Rate Case filing was 12.157 percent. A typical residential customer's bill will increase by approximately \$1.68.

This Rider recovers costs associated with our investments in renewable generation resources.
